Shared costs maintenance

Starting in fiscal year 2017, the District became responsible for the maintenance and monitoring of the panther mitigation property in Labelle. The establishment and perpetual responsibility to maintain the property and provide a five year monitoring and reporting program (which ended in 2020) is a development order requirement for not only this District but also for 3 other neighboring communities. Additionally, in fiscal year 2018, the District became responsible for the costs of maintaining the common infrastructure along Bonita Beach Road serving the same communities, including landscaping, roadway and storm water maintenance. All of the costs are shared with the other communities by interlocal agreement and based upon previously agreed upon percentages. In fiscal year 2023, the District elected to abandon the LED streetlighting on both sides of the roadway as a part of a lease, power and maintenance agreement with FPL. The District and the three other communities have initiated a sidewalk lighting plan for the sidewalk along the south side of Bonita Beach Road only as well as some landscape uplighting in the center median to provide a softer lighting effect for the roadway and to reduce impacts to the neighboring communities. Both projects were completed in late 2024 with the sidewalk lighting being under a lease, power and maintenance agreement with FPL.

The District is a special purpose unit of local government established under Chapter 190, *Florida Statutes*, for the purpose of providing infrastructure and services to your community. The proposed O&M Assessment information for your property is set forth in **Exhibit A**.

The public hearings and meetings are open to the public and will be conducted in accordance with Florida law. A copy of the Proposed Budget and assessment roll, and the agenda, for the hearings and meeting may be obtained by contacting 2300 Glades Road, Suite 410W, Boca Raton, Florida 33431, Ph: (561) 571-0010 (“**District Manager’s Office**”). EXHIBIT A
Summary of O&M Assessments

1. **Proposed Budget / Total Revenue.** For all O&M Assessments levied to fund the Proposed Budget for Fiscal Year 2026, the District expects to collect no more than **\$343,624** in gross revenue.
2. **Unit of Measurement.** The O&M Assessments are allocated on a per acre basis for undeveloped property and on a per Equivalent Assessment Unit (“EAU”) basis for platted lots. Your property is classified as one (1) Platted Lot.
3. **Schedule of O&M Assessments:**

Land Use	Total # of Units	EAU Factor	Proposed Annual O&M Assessment (including collection costs / early payment discounts)
Platted Lot	1,459	1	\$235.52

Note that the O&M Assessments do not include any debt service assessments previously levied by the District and due to be collected for Fiscal Year 2026. Moreover, pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the “maximum rate” authorized by law for operation and maintenance assessments, such that no assessment hearing shall be held or notice provided in future years unless the assessments are proposed to be increased or another criterion within Section 197.3632(4) is met.

4. **Proposed O&M Assessments for Your Property.**

Current Annual O&M Assessment (October 1, 2024 – September 30, 2025)	Proposed Annual O&M Assessment (October 1, 2025 – September 30, 2026)	Change in Annual Dollar Amount
\$217.68	\$235.52	\$17.84

5. **Collection.** By operation of law, the District’s assessments each year constitute a lien against benefitted property located within the District just as do each year’s property taxes. For Fiscal Year 2026, the District intends to have the County Tax Collector collect the assessments imposed on developed and developable property within the District. For delinquent assessments that were initially directly billed by the District, the District may initiate a foreclosure action or may place the delinquent assessments on the next year’s county tax bill. **IT IS IMPORTANT TO PAY YOUR ASSESSMENT BECAUSE FAILURE TO PAY WILL CAUSE A TAX CERTIFICATE TO BE ISSUED AGAINST THE PROPERTY WHICH MAY RESULT IN A LOSS OF TITLE, OR FOR DIRECT BILLED ASSESSMENTS, MAY RESULT IN A FORECLOSURE ACTION, WHICH ALSO MAY RESULT IN A LOSS OF TITLE.** The District’s decision to collect assessments on the tax roll or by direct billing does not preclude the District from later electing to collect those or other assessments in a different manner at a future time.

WHEREAS, the District has constructed or acquired various infrastructure improvements and provides certain services in accordance with the District's adopted capital improvement plan and Chapter 190, *Florida Statutes*; and

WHEREAS, the Board of Supervisors ("**Board**") of the District hereby determines to undertake various operations and maintenance and other activities described in the District's budget ("**Adopted Budget**") for the fiscal year beginning October 1, 2025 and ending September 30, 2026 ("**Fiscal Year 2025/2026**"), attached hereto as **Exhibit A**; and

WHEREAS, the District must obtain sufficient funds to provide for the operation and maintenance of the services and facilities provided by the District as described in the Adopted Budget; and

WHEREAS, the provision of such services, facilities, and operations is a benefit to lands within the District; and

WHEREAS, Chapter 190, *Florida Statutes*, provides that the District may impose special assessments on benefitted lands within the District; and

WHEREAS, it is in the best interests of the District to proceed with the imposition of the special assessments for operations and maintenance in the amount set forth in the Adopted Budget; and

WHEREAS, the District has previously levied an assessment for debt service, which the District desires to collect for Fiscal Year 2025/2026; and

WHEREAS, Chapter 197, *Florida Statutes*, provides a mechanism pursuant to which such special assessments may be placed on the tax roll and collected by the local tax collector

("Uniform Method"), and the District has previously authorized the use of the Uniform Method by, among other things, entering into agreements with the Property Appraiser and Tax Collector of the County for that purpose; and

WHEREAS, it is in the best interests of the District to adopt the assessment roll ("**Assessment Roll**") attached to this Resolution as **Exhibit B**, and to certify the Assessment Roll to the County Tax Collector pursuant to the Uniform Method; and

WHEREAS, it is in the best interests of the District to permit the District Manager to amend the Assessment Roll, certified to the County Tax Collector by this Resolution, as the Property Appraiser updates the property roll for the County, for such time as authorized by Florida law.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE BEACH ROAD GOLF ESTATES COMMUNITY DEVELOPMENT DISTRICT:

SECTION 1. BENEFIT & ALLOCATION FINDINGS. The provision of the services, facilities, and operations as described in **Exhibit A** confers a special and peculiar benefit to the lands within the District, which benefits exceeds or equals the cost of the assessments. The allocation of the assessments to the specially benefitted lands is shown in **Exhibits A and B**, and is hereby found to be fair and reasonable.

SECTION 2. ASSESSMENT IMPOSITION. Pursuant to Chapters 170, 190 and 197, *Florida Statutes*, and using the procedures authorized by Florida law for the levy and collection of special assessments, a special assessment for operation and maintenance is hereby imposed and levied on benefitted lands within the District, and in accordance with **Exhibits A and B**. The lien of the special assessments for operations and maintenance imposed and levied by this Resolution shall be effective upon passage of this Resolution.

SECTION 3. COLLECTION AND ENFORCEMENT; PENALTIES; INTEREST.

- A. Tax Roll Assessments.** The operation and maintenance special assessments and previously levied debt service special assessments shall be collected at the same time and in the same manner as County taxes in accordance with the Uniform Method, as set forth in **Exhibits A and B**.
- B. Future Collection Methods.** The decision to collect special assessments by any particular method – e.g., on the tax roll or by direct bill – does not mean that such method will be used to collect special assessments in future years, and the District reserves the right in its sole discretion to select collection methods in any given year, regardless of past practices.

SECTION 4. ASSESSMENT ROLL. The District's Assessment Roll, attached to this Resolution as **Exhibit B**, is hereby certified to the County Tax Collector and shall be collected by the County

Tax Collector in the same manner and time as County taxes. The proceeds therefrom shall be paid to the Beach Road Golf Estates Community Development District.

SECTION 5. ASSESSMENT ROLL AMENDMENT. The District Manager shall keep apprised of all updates made to the County property roll by the Property Appraiser after the date of this Resolution, and shall amend the District's Assessment Roll in accordance with any such updates, for such time as authorized by Florida law, to the County property roll. After any amendment of the Assessment Roll, the District Manager shall file the updates in the District records.

SECTION 6. SEVERABILITY. The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof.

SECTION 7. EFFECTIVE DATE. This Resolution shall take effect upon the passage and adoption of this Resolution by the Board of Supervisors of the Beach Road Golf Estates Community Development District.

PASSED AND ADOPTED this 18th day of August, 2025.

FIRST ORDER OF BUSINESS

Call to Order/Roll Call

Mr. Willis called the meeting to order at 1:00 p.m. All Supervisors were present.

SECOND ORDER OF BUSINESS**Chairman's Opening Comments**

Mr. Kove asked if the Board can receive a draft agenda to review before it is finalized. Mr. Willis replied affirmatively.

THIRD ORDER OF BUSINESS**Public Comments (3 minutes per speaker)**

Public comments were heard during the meeting.

FOURTH ORDER OF BUSINESS**Update: Superior Waterway Services, Inc.
Treatment Report**

Mr. Nott presented the Monthly Treatment Report outlining treatments in the lakes and flowways and noted that water levels are rising. The technician investigated all the aeration systems and, other than possible moisture in the air, is still working to determine what is causing the ground fault circuit interrupters (GFCI) to trip.

Mr. Kove asked for suggestions to lower the exposed extension pipes and to check the noise levels from the compressors. Mr. Nott stated he will inspect and submit a proposal to anchor the pipes.

Mr. Kove asked about the Pedestrian/Golf Cart Crosswalk project at Cavan Court. Mr. Willis stated that AV-Tech is waiting for the poles to arrive; the project will take about three days to complete.

Mr. Kove asked if Mr. Adams contacted Florida Power & Light (FPL) about the sidewalk lighting project and noted that two lights remain on the list. Mr. Willis stated he will ask Mr. Adams if FPL responded to his email requesting a maintenance visit. Regarding Seasons asking for the lights to come on simultaneous, instead of different sections coming on at different times, Mr. Willis stated this is typical of photo optic sensors.

Mr. Kove stated that LandCare's contract expired on July 1, 2025 and is on a month-to-month basis and noted that LandCare has yet to address any of the CDD's concerns. Mr. Willis stated he contacted the area Manager last week about LandCare's unresponsiveness. LandCare finished cleaning the lamppost poles and where the mature Royal Palm tree was replaced. LandCare agreed to hold their prices if the Board awards them a new contract. Additional

71 proposals/bids will be presented at the next meeting; the contract amount is below the amount
72 that would necessitate the sealed bid process.

73 Mr. Kove asked if LandCare replaced the plants in front of the second Valencia entrance.
74 Mr. Willis stated they completed the project a little over a week ago.

75 Discussion ensued regarding possibly pursuing LandCare in the future for reimbursement
76 of costs to repair irrigation and lighting systems that LandCare's crews damaged; the LandCare
77 Supervisor inspecting completed work by adding that language into the scope of services for all
78 CDD contracts; the HOA representatives' comments on LandCare's performance; and the
79 assignment of a different Manager than the CDD's Manager.

80 Mr. Kove asked for the Landscape Account Managers to present proposals at the next
81 meeting.

82 Discussion ensued regarding the reasons the drainage structure at Seasons needs to be
83 cleaned out and whether the CDD can start holding other communities and contractors
84 responsible for damaging CDD property, instead of the CDD incurring repair costs.

85 Mr. Kove asked for an update on the sidewalk repair project. Mr. Willis stated that Ms.
86 Magaldi and Counsel for Bonness worked on several red-line versions of the CDD's contract and
87 verbal approval from Counsel for Bonness was received to accept the final version of the contract.
88 Mr. Zordan stated that, once the contract is executed, it will be placed on the schedule; he
89 expects the project to commence within 30 days.

90 Mr. Kove asked if a date was set to close out the Construction Fund Account. Mr. Willis
91 replied no, as the sidewalk repair and solar pedestrian crosswalk projects need to be completed
92 before the close out process can commence. He presented the Construction Fund Sources and
93 Uses Reconciliation Report behind the Fifth Order of Business.

94 Discussion ensued regarding the Valencia HOA sending letters placing vendors on notice
95 about trucks damaging property; developing solutions like placing all vendors on notice; installing
96 "No Parking on Sidewalks" signs that comply with traffic codes; hiring an off-duty Sheriff Deputy
97 to patrol and issue tickets, which is more effective but costly; educating residents of ongoing
98 issue and cost; and installing a ramp or curb cut out.

Mr. DiTommaso posed and Mr. Willis and Mr. Urbancic responded to questions regarding the Construction Fund; closing it in Fiscal Year 2025 rather than a carry over to Fiscal Year 2026; the process of closing the Construction Fund account and apply remaining funds to pay down bond debt; and the bill to increase sovereign immunity limits not passing legislation so that will not affect the Fiscal Year 2026 budget.

Ms. Kempf asked if the CDD is required to provide a legal explanation as to why the Banks Engineering 2022 and 2023 requisition numbers are missing to close out the Construction account. Mr. Zordan stated he will confirm that the contracts and supporting documents are sufficient.

Mr. Kove stated that, in addition to cancelling the Wicklow Court solar project, the reflectors were removed.

FIFTH ORDER OF BUSINESS

Acceptance of Unaudited Financial Statements as of May 31, 2025

- Construction Fund Sources and Uses Reconciliation**

Mr. Willis presented the Unaudited Financial Statements as of May 31, 2025. Mr. Willis and Mr. Urbancic responded to questions about the Assigned and Unassigned fund balance, what happens to unused funds and the strategy of reserving funds or obtaining loans for capital improvement projects, if needed.

The financials were accepted.

SIXTH ORDER OF BUSINESS

Approval of June 16, 2025 Regular Meeting Minutes

The following changes were made:

Lines 76 and 81: Change "A Board Member" to "Mr. DiTommaso"

Regarding Line 146, Mr. DiTommaso asked if the HOA/golf course was notified that the maintenance facility pedestrian crosswalk project was cancelled and that the CDD is no longer involved. Mr. Willis stated he drafted an email and will send it today. Regarding safety and who

is responsible in the event of an accident, Mr. Willis stated that the road and the cart path are private property of the HOA and the golf course, respectively.

On MOTION by Mr. Grillo and seconded by Mr. Kove, with all in favor, the June 16, 2025 Regular Meeting Minutes, as amended, were approved.

Ms. Olsen introduced Natalie as the new Assistant CAM; she will attend CDD meetings.

Thank you for giving me a call. Per our discussion, we completed our inspection on 6/17/25 and found several of the lake banks, along the golf course, have significant wash-outs. I've included the approved LDO and a few photos from our site visit (1st photo: Lake 19, 2nd & 3rd photos: Lake 9, & 4th photo: Lake 12...I think). If you would like me to attend your inspection, I will make myself available. When we did our inspection, we coordinated a ride-around with the new Superintendent Tom Calgary (239) 692-8832 (I don't have an email address for him).

Please let us know if you have any questions or if there's anything we may do to help.

Please send your proposal to District Operations Manager Shane Willis at willisS@whhassociates.com no later than 3:00 p.m. on Friday, September 1st, 2025. See attached “Bid Proposal Time Schedule” (Exhibit B) for event dates. The map of areas to be maintained are attached, approval is based on cost & available funding.

Community Access:

Areas to be serviced are located along Bonita Beach Road and do not require community access.

Background:

As requested by the CDD Board, District Management was instructed to source competitive requests for proposals for landscaping services to be presented at their September 15, 2025 meeting.

The current District budget for landscaping services is \$33,042.28.

Scope of Work:

Purpose: The following information is intended to be used as guidance for the contractor to perform landscaping services within the Beach Road Golf Estates Community Development District as identified herein, and in the accompanying tables and maps.

EXISTING FACILITIES

Exhibit “A” is the map showing the locations of the facilities to be maintained by this contract.

Existing Facilities include:

- a. **Bonita Beach Road center median from the traffic circle at Logan Blvd North to the front gate of Bonita National Golf & Country Club.**

MAINTENANCE SPECIFICATIONS

1. Turf

Variety "Argentine" Bahia grass and Stenotaphrum secundatum, variety "Floratam" St. Augustine grass.

1. Mowing height shall be maintained at 3 ½ to 4 inches on Floratam and Bahia grasses in all areas of improved landscape.

2. The contractor shall use rotary mowers with sharp blades which are correctly balanced. Dull blades shall be changed at midday per cut.
3. Floratam and Bahia grass will be mowed weekly from March 1st thru November 30th and every other week from December 1st thru February 28th (42 times per year).
4. Streets, curbs, sidewalks, bike paths, plant beds, and borders shall be maintained free of grass clippings.

2. Edging

- a. Mechanical edging of all turf grass areas next to curbs, streets, sidewalks, bike paths, beds, lakes and borders shall be done at least every mowing to prevent grass encroachment. All plant beds and obstacles are to be edged every other week throughout the year. All areas that are inaccessible with a mower are to be string trimmed at each mowing i.e., lake banks, signs etc.
- b. Chemical edging shall not be permitted unless written approval is secured from the District Manager.
- c. Dirt, trash, and debris resulting from edging operations shall be removed and all areas shall be left in clean condition before the end of the working day. Chemical treatment of curb road joints is permitted.

3. Fertilization

The following fertilization schedule shall be followed:

- a. All Grass Areas: February, October and December 15-0-15 50% slow release (3 total occurrences). Monthly reports shall clearly indicate when fertilization takes place.
- b. At times environmental conditions may require additional applications of nutrients, augmenting the above fertilization programs to see that turf areas are kept uniformly GREEN, healthy and in top condition. It shall be the responsibility of the contractor to determine specific needs and requirements and notify the District Manager when these additional applications are needed and being executed.
- c. Fertilizers containing iron shall be removed from curbs, roads, walks, and driveways to avoid staining before the sprinklers are activated after application of the fertilizer.
- d. The complete fertilizers specified shall contain a combination of soluble nitrogen and W.I.N. nitrogen. Such fertilizer shall be watered in promptly after application.
- e. Soil test samples shall be taken by the contractor to determine whether changes in the fertilizer pH or fertilizer formulations are indicated. The test results shall be given to the district for review by the District Manager and the Lee County Horticultural Agent. If it is determined, by the District Manager after this review, that the pH or fertilizer formulations should be changed, the district will so advise the contractor in writing and the contractor shall implement such change, at the contractor's expense within 2 weeks of receipt of said notice.
- f. The method of application of fertilizer shall be the responsibility of the contractor. If any turf is badly damaged or killed by excessive fertilizer, it shall be replaced by the contractor at his expense.

4. Weed Control (Applied during each mowing service)

- a. Annual grassy weeds shall be controlled by pre-emergent herbicides applied before seed germination begins. For bahia, only Balon, Ronstar G., Betasan and Dathal are approved by the District. For St. Augustine, only Kerb, Aslon, Betasan, Dathal may be used. Application times shall be appropriate to seed germination which depends upon whether the grasses are summer annuals or winter annuals.

- b. Annual grasses, annual broadleaf weeds, perennial broadleaf weeds and sedges may be treated in bahia turf with postemergent herbicides such as the following approved by the District; 2, 4-D, Basagran, Dicamba, MCPP or by combination sprays of two or more of these ingredients such as Trepson, Trimec, or Super D Weedone. Postemergent herbicides approved by the District for use on St. Augustine include; 2, 4-D, Basagran, Dicamba, Sencor, Asulox. Dicamba is the most preferred by the District except for sedge where the preference is Basagran or Manage.
- c. The chemicals listed above are safe to use on the type turf specified only when used in the correct way on mature, healthy turf at the correct dose as specified by the manufacturer.
- d. No spraying for weeds in either type of turf may be done when there is any danger of winds causing a spray drift into surrounding plants.
- e. The only approved herbicide to be used to control selected species of sedge (*Cyperus esculentus* and *C. compressus*) shall be Basagran. Do not cut the grass for at least three days before and after applying Basagran. Water the day before each application and repeat the sprays until control is achieved. *Cyperus rotundus* is tolerant to Basagran and shall be mechanically removed.
- f. Mowing intervals set forth in "Mowing" section 1.b may be relaxed during herbicidal treatment periods, with written approval of the District Manager.
- g. If District turf is contiguous to grasses of another variety, care shall be taken by the contractor to avoid injury to such turf. If the contiguous turf is Bermuda, do not spray with Atrazine or 2, 4-D. If the area is contiguous to Floratam or Bahia, do not spray it with Atrazine.
- h. WEED CONTROL ELSEWHERE THAN IN TURF. THE CONTRACTOR SHALL KEEP ALL PLANTED AREAS FREE OF WEEDS AT ALL TIMES. THIS INCLUDES THE BASES OF TREES AND SHRUBS, BEDS, AND BORDERS. IN GENERAL, WEEDS SHALL BE REMOVED BY HAND FROM THESE AREAS. CHEMICALS WHICH MAY CAUSE PLANT INJURY, DECLINE OR DEATH SHALL NOT BE USED. GRANULAR BALAN AND RONSTAR G UNDER SOME CIRCUMSTANCE MAY BE USED FOR PREEMERGENT CONTROL AFTER WEEDS HAVE BEEN REMOVED BY HAND.
- i. Mechanical treatment may be necessary if and when directed by District or resident project representative.

5. Insect and Pest Control

- a. An insect and pest control program designed to prevent damage to Bahia and St. Augustine turf will be provided by the contractor on an "as needed" basis or whenever requested by the District Manager for the district. Particular attention to damage by mole crickets, sod web worms, and army worms will require that control programs be initiated promptly. Approved chemicals for the three pests mentioned include; Mole Crickets- Baygon 70WP, Talstar, Oftanol 5% G or bursts of Baygon, Malathion or Sevin Dusts. Sod Web Worms and Army Worms- Orthene 75% WD, Larsban, Turcam, Diazinon AG500, Sevin Dust 80% WP, Trichlorfon 80% WP. Other restricted chemicals may be used only by a certified pest control operator.

Infestations by other insects and pests shall be controlled by chemicals approved by the District Manager prior to their use. Amdro shall be used on fire ants, AG500, Talstar, 8E, and Sevin Dust 80% WP shall be used when needed on other species of ants. Talstar AG500 and are approved for use on chiggers, fleas, ticks, and other insects. Talstar and AG500 may also be used on white grubs, billbugs, spittlebugs, millipedes, earwigs, sowbugs. The earwig should not be sprayed if possible as it is a useful predator of lawn caterpillars. There are many chemical controls available. The District Manager can advise the contractor on approved formulations and the safe rates of their applications, if requested.

- g. Trees and Shrubs- When insects such as white flies, scales, stinging caterpillars, hornworms, mealy bugs, spittlebugs, beetles, grasshoppers, katydids, leaf minors, leaf rollers, borers or others are detected and are reaching damaging levels on landscape plants, the contractor shall apply the appropriate control measures. These may be general purpose sprays or systemic insecticides and their selection shall be related to the way they damage plants. The chemical selected shall control the target pest and be safe to use on the host plant. It is not necessary always to spray to control insect or mite populations. Whenever possible use a mechanical control method, biological controls or other non-chemical methods. The number of sprays per year needed cannot be predicted. The contractor must provide for an allowance in his bid, however, to plan for insect control. Some plants will require repeated sprays to control scale or caterpillars. The contractor shall plan for a minimum of two sprays for all plants as an average.

6. Disease control

- a. Since diseases are easier to prevent than control, the contractor shall apply at least three sprays per year to all plants known to be susceptible to the most common disease such as; Brown Patch, Dollar Spot, Gray Leaf Spot, Ruse and Helmenthosporium of St. Augustine. Fungicide approved by the resident project representative shall be used by the contractor include; Daconil, Fore, Terson 1991, Thiram, Terraclor, Dyrene and Terson LSR, and contractor will inspect weekly for turf grass disease and shall spray on an "as needed" basis. The District Manager will be informed on all activities or problems.
 - b. Tree and shrub fungicides shall be applied to assist in prevention of diseases on susceptible species. In some cases, sprays or injections will be applied to combat other living agents such as bacteria, viruses, microplasmas, algae, nematodes, or viroids. The best method of control shall be used by the contractor for the given situation. The most important consideration when combating disease is to have the spray on the plant before infection takes place; most fungicides are protectants not eradicants.
 - c. Diseases which commonly attack plants include; Botrytis Blight, Bacterial Wilt, Brown Gall, Mushroom Root Rot, Powdery Mildews, Pythium Root Rots, Thizonctonia Stem Rot, Sclerotonea Rot, and Southern Wilt. The contractor shall apply preventative sprays such as Beomyl (Benlate), copper sulfate or Daconil as protectant sprays on an "as Needed" basis.
 - d. If diseases are diagnosed which have no known method of control, the District Manager shall be notified promptly. If the disease is confirmed, the plant shall be removed and destroyed off site. In some cases, the contractor shall remove infected soil and replace with new soil before replacing the diseased plant.
 - e. Other chemicals to control or prevent disease may be used on selected plants.
 - f. The contractor shall assume full responsibility for spray damage to plants. He or his applicator shall be properly trained and licensed for commercial spraying. A photocopy of his license shall be attached. Disease of Sabals include leaf scab. Phytophthora Bud Rot , Black Mildew, and Manganese. The contractor shall take prompt action to control these conditions either by spraying with appropriate chemicals such as Copper sulfate, Zineb, Tru Ban, and Benlate or in the case of Manganese deficiency either by applying Manganese to the soil or applying it as a one percent foliar spray.
1. Removal and replacement of dead/dying plants shall be completed within five days of damage noted at the contractor's expense.

7. Shrubs, Trees, and Palms Fertilization

- a. The contractor shall inform the District Manager if and when there is a need to fertilize all trees, palms, and shrubs to maintain them in a healthy growing condition, free from symptoms of nutritional deficiency or undesirable appearance.
- b. Fertilizer application for Shrubs and Trees shall be completed quarterly with the application as follows: Micromax 1 x – 8-2-10
- a. Fertilizer application for Palms shall be completed quarterly with the application as follows: 8-2-10.
- b. Fertilizer application for Annuals – Apply 1 lb. per 25 square feet of 14-14-14 analysis slow release every 3 months or as needed and follow at monthly intervals with the application of 10-30-20 soluble fertilizer, at rates directed by the manufacture.

Distribution. The fertilizer shall be well scattered in an area from halfway between the stem and the drip line of the circumference. The fertilizer shall be distributed as evenly as possible by hand or by special mechanical applicator.

The contractor shall apply fertilizers to plants which are turgid and shall water-in the fertilizer promptly and thoroughly after application.

Fertilizer which lands on leaves shall be shaken off or hosed off leaves.

Palms – When needed; apply a 13-3-13 analysis fertilizer at the rate of one pound per foot of clear trunk (5 to 10 pounds, maximum).

Trees – When needed; Apply a 8-2-12 analysis fertilizer or “palm special” fertilizer at the rate of 1 pound per foot of clear trunk (5 to 10 pounds per tree maximum).

- c. Not less than seventy-two (72) hours prior to the application or placement of any fertilizer, the contractor shall notify the District Manager of the time and date that the contractor will apply fertilizers. **FAILURE ON THE PART OF THE CONTRACTOR TO NOTIFY THE DISTRICT MANAGER IN WRITING BY MAIL OR BY EMAIL SHALL RESULT IN THE CONTRACTOR FORFEITING ANY AND ALL RIGHT TO PAYMENT FOR THE APPLICATIONS MADE WITHOUT NOTIFICATION.**

8. Pruning (1 OCCURRENCE)

- a. All pruning shall be performed as required to maintain the natural shape and characteristics of the plant species. The resident project representative shall be made aware of all pruning activities.
- b. Pruning shall also include removal of trees, palms, shrubs, or ground covers that are dead, broken or diseased. When diseased plant material is removed, the cut should be made well into healthy plant tissue or the plant totally removed.
- c. Pruning shall include the removal of inward growing branches, water suckers and crossing or rubbing branches. The crossing branch facing inward will generally be selected for removal.
- d. Major pruning shall be done by the contractor to shape individual plant species and/or to renew the vigor of the particular plant species on the following schedule:

Prune all trees in January, in accordance with pruning standards as class I & II Fine and Standard Pruning as defined by the National Arborists Association.

Starting the week after the traditional Easter Holiday, trim all ornamental grasses (example: Fountain, Fakahatchee) to within 1 foot from the ground.

Follow the completion of the ornamental grass pruning with pruning all Jasmine, Bouganvillia, Coco Plum, and other non-flowering shrub species. As soon as the major flowering or the Oleander species has been completed in late spring, any necessary required pruning should occur. All hard pruning shall be completed no later than June 30th of each year.

Palms and related plants shall be pruned in November and early December. Pruning shall require the removal of all fronds as close to the trunk as possible when they are brown on the tips or when the fronds are infested with the leaf scarifier. Dead and live inflorescence shall be removed at the same time. Do not remove all green healthy fronds (just to make it easier to reach dead fruiting stalks or emerging florescence) and avoid nicking the petioles of adjacent healthy fronds. Unsightly dead fronds that occur at other times of the year shall be removed immediately.

An additional trim, to within 1 foot from the ground, of the Fakahatchee grass will be required in September.

When major pruning begins on a particular species of plant, it shall continue until all plants of that species have been pruned within the jurisdiction of this contract.

Minor pruning shall occur throughout the year to keep individual plants within desired limits on an "as needed" basis. Seed pods shall be removed as they occur.

- e. The contractor shall prune vertical growth at a 45-degree angle. Branches shall be removed flush with the trunk.
- f. The contractor is required to remove all pruned materials and debris from the site each day.
- g. Plant materials shall be trimmed on a regular basis from around landscape lighting accent fixtures and signage.

9. Water, Irrigation and Sprinklers

- a. The manual and automatic sprinkler system is to be used to maintain plant health and to conserve water.
- b. The contractor shall provide supervision of the system and shall make all adjustments, repairs, and replacements required.
- c. The contractor agrees to at his expense any part of the irrigation system damaged for any reason.
- d. A soil moisture probe meter shall be used by the contractor to determine soil moisture content in off-color turf areas and corrective action taken promptly to rectify the condition.
- e. Newly planted trees and shrubs shall be watered at least daily by sprinklers or rain for the first two weeks. Moisture meter readings in the ball area shall be maintained in the "moist" zone on the meter.
- f. Risers shall be added as needed in the bed areas to ensure that water is being supplied to the entire shrub area and not being blocked or deflected by growing plants. Risers will be painted as necessary to match existing throughout).
- g. The contractor shall inform the district immediately of any serious problems in the irrigation system.

- h. The contractor shall run through each line of the system weekly to check that all heads are working properly and that all areas are being evenly and completely covered.
- i. The Contractor shall also perform 12 irrigation checks annually. These checks shall clearly be identified on the monthly landscape report.
- j. The clock controls shall be programmed to deliver the amount of water which can be used by the turf and plants. Field capacity shall never be exceeded.

Because turf water needs vary from month to month, the amount of watering time shall be adjusted periodically to reflect these needs.

- k. Excessive watering shall be avoided. It wastes water, floods large soil spaces and adversely affects the "Cation Exchange Capacity" of the plant. It also wastes water soluble fertilizers. Bahia does better if it is watered more thoroughly but less frequently than St. Augustine. Plants shall be watered, therefore, by contractor in accordance with the season, soil type, turf type, topographical feature and evapo-transpiration factors.
- l. All turf and other irrigation shall be between the hours of 6:00 P.M. and 7:00 A.M., unless otherwise approved in writing by the District Manager.
- m. It shall be clearly understood and agreed by the contractor that all irrigation, sprinkler systems including all necessary appurtenances to maintain said system shall be the responsibility of the contractor. Damage by others will not relieve the contractor of his responsibility to maintain the turf, shrubs, trees, ground covers, and annuals in a healthy condition.

11. **Special Requirements**

- a. All tree bracing systems shall be checked regularly and tightened as needed and removed promptly when required. Periodic adjustment to straighten trees from wind and settling shall be completed by the Contractor. Trees damaged by bracing systems left too long that cause damage to tree trunks will be replaced by the Contractor at Contractor's expense.
- b. Contractor has been advised that the District has landscape lighting located on the Royal Palms in the center median of Bonita Beach Road from the Fire Station to the front gate of the Bonita National Community. Contractor shall avoid any impact or damage to the District's landscape uplighting. In the event Contractor impacts any such lighting, Contractor shall replace such lighting to its prior position if undamaged. If the lighting is damaged or otherwise unable to be placed back in the correct position, Contractor shall notify the District's Operations Manager within 72 hours. Any damage caused by Contractor to the landscape lighting shall be repaired or replaced at the contractor's cost.
- c. THE PARKING OF TRUCKS OR OTHER VEHICLES OF CONTRACTOR ON DISTRICT SIDEWALKS LOCATED ON BONITA BEACH ROAD IS PROHIBITED AT ALL TIMES. Contractor shall be responsible for any damage caused to District sidewalks due to any violation of this prohibition.

Trash Pick-up

Trash shall be picked up throughout the landscape areas, at a minimum, once per week.

Monthly Report

On the first business day of each month, the contractor shall provide a landscaping report to the District's representative Operations Manager Shane Willis willisS@whhassociates.com. This report shall include all treatments from the previous month, any vegetation loss, irrigation repairs & current status of newly planted material (plantings made within the previous 60 days).
